Subject: Security Interviews

To: Lieut. Col. John V. Grombach

1. You have requested that we conduct interviews on #334, Ethel A. Bowler, and #484, David T. Scull. Since these persons live in or near Washington it is suggested that you arrange to have them come into this office for an interview, or if you prefer, for reasons of cover, the interview can be held elsewhere in Washington.

2. We have received from your office a Personal History Statement on #520, Francis A. Prevedon, which helps to complete our background information on this Subject. However, since the doubts of the Subject's security spring largely from the unwillingness of persons interviewed to endorsing whole-heartedly, we believe that an interview, rather than further investigation, is what is required. Since the Subject lives here in Washington it is suggested that you arrange to have him come in for an interview.

For the Security Officer

James F. Lawrence

James F. Lawrence
1st Lieut., AUS
Adjutant
